Join us for the release of the Nordea Economic Outlook on 2 September. Register for our webinar featuring Nordea's Group Chief Economist Helge J. Pedersen, who will present Nordea's latest economic analysis and forecasts.

The global economy has shown remarkable resilience, but uncertainty remains high. The war in the Middle East has pushed oil prices higher, reigniting inflation concerns and prompting central banks to reassess their policy paths. Bond yields have climbed, and the AI-driven investment boom, which so far has lifted economic activity and stock markets, is raising questions of its own.

Are we heading towards rising inflation? How will central banks respond – and what does this mean for interest rates, currencies and growth across the Nordics and beyond?

Join Helge J. Pedersen as he explores the key forces shaping the economy in the years ahead.
